

Activate your Order Better Network

Take a few minutes to update or claim your business listings—so you can get the most from your online reach.

Claim and update these profiles

Claim your business listing and select ChowNow as your preferred provider, and it will be highlighted to diners if you have multiple online ordering providers. Tip: Make sure your business type is 'Restaurant.'

Check these profiles

Make sure these are up to date. Yelp and Opentable may prompt you to create a paid business account, but this upgrade is not required to claim your listing.

[Yelp](#) • [Opentable](#) • [Trip Advisor](#)

Sit back and relax

We'll handle your integrations with these sites.

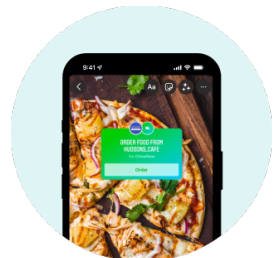

[Snapchat](#) • [Single Platform](#) • [Seated Rewards](#)

Serve your diners on social media

Use our **free integration** with Facebook and Instagram to unlock two new ways to take orders—through an "Order Food" button on your profile, and through special food ordering stickers in Instagram Stories.
